FAQ Why do I have to take a photo of the image? An image is just a picture that stores the memory of the patient's condition. By taking a picture of that image, you can save it into your app. This way, you can organize and share medical data more easily. You can take photos of documents if your photo app can handle documents too. If I use the in-built camera to take a photo, how do I take one of an image? For your convenience, we developed a built-in camera which allows you to take a photo of an image easily. Note: You may have to take more than one photo if your image needs to have a b7e8fdf5c8

+ Organize your patient photo images into folders and easily manage them with the image gallery. + Display the photos as thumbnails in two ways: As a list of your photo images organized by date or by folder. + Add comments to the photo images and set the file properties. + Schedule reminders for each photo image, which will help you find them when you need to. + View all of your images in high-resolution, on-screen thumbnails. + Share the photo images with your friends via mail, SMS or Facebook. + Backup the patient photo images to your PC, with full support for Windows Vista/Windows 7. + Includes an easy and user-friendly interface. Saral is easy to use with a clean and simple graphical interface. You can create folders (Alphabetical/Year/Month/Day), attach files, and set the filename, file extension and access permissions at the same time. It also includes image editing and printing tools. This application includes a user's manual with illustrations of how to use the application. The application includes an uninstallation file to remove Saral Imaging from your computer with a single mouse click. # Saral Imaging Includes: + Internationalizations: Spanish, Italian, German, French, Portuguese, Japanese, Russian, and English. + Windows 8, 7, Vista, XP and 2000 support. + Extract archives from the ISO image. + Free virus check (maximum scanning time is 2 minutes). + Full Windows support (not limited to 64-bit). + Multiple languages: English and Chinese. + User interface is translated to 42 languages. The application was tested on multiple popular browsers, including Internet Explorer 9/10, Google Chrome/Chromium, Firefox/FireFox, Opera and Safari. Installation: Download the package and install in: • C:\Users*UserName*\AppData\Local\SARAL\IMG • Program Files\Saral*ApplicationName* (where *UserName* is the username of the PC and *ApplicationName* is the program you choose to create the folder where you store your photos) The default application name is SIRAL.EXE. To create a new folder, rename the *.exe file to anything you want. Important: This installation package is only a way to install

What's New in the?
